

Fighting for the Rule of Constitutional Law, Civil and Human Rights!

June 9, 2017

OPEN PUBLIC STATEMENT
COMEY TESTIMONY June 8, 2017
U.S. Senate Intelligence Committee

In his June 8, 2017 sworn testimony before the U.S. Senate Intelligence Committee, former FBI Director James Comey testified that he was pressured by former Attorney General Loretta Lynch, to essentially quash the Clinton email criminal investigation.

In Comey's statement, he confirmed again that Hillary Clinton had committed crimes in the misuse of private email accounts and servers while she was Secretary of State. He also stated that he sought Special Counsel for the Clinton investigation and was denied the request by Attorney General Loretta Lynch.

Further, Comey testified that he was pressured by Attorney General Lynch to refer to the ongoing Clinton investigation as only "a matter" and not as an official investigation, an overt effort by Lynch to obstruct justice and run blocker for Hillary Clinton in the Clinton email investigation, directing Comey to match FBI language to that of the Clinton campaign at the time.

Comey also testified that these events, in addition to the improper and likely illegal meeting between Bill Clinton and Loretta Lynch on an Arizona tarmac during an ongoing investigation, led him to "go public" with Clinton's criminal activities and abuse of national security protocol in July of 2016.

It is on the basis of this highly damning testimony that we call for an immediate investigation into collusion, corruption and obstruction of justice between former FBI Director Comey and former Attorney General Loretta Lynch, before the Senate or House Judiciary Committee, to determine the nature and depth of criminal acts committed in an effort to stop the Clinton investigation for benefit of the Hillary Clinton for President campaign.

Contact [Sen. Charles Grassley](#) or [House Representative Bob Goodlatte](#) to demand an investigation.
